(Municipal Clerks, please forward to the Mayor)

Dear Mayor,

The League is continuing to advocate on your behalf to the State and Federal decision makers. Your input is critical so we can accurately and forcefully tell your story of how COVID-19 is impacting municipal revenues and appropriations. Hundreds of billions of dollars are moving through government and it is not properly targeted to the municipal level where front line response is either helped or hamstrung by funding.

Please use less than 5 minutes to look at these six areas of impact and tell us how you are handling them.

[COVID-19 Impact on Municipal Revenues & Appropriations Survey](#)

The League needs to add your voice and your story to our advocacy efforts.

Thank you for continuing to put your residents needs front and center during this statewide and nationwide response.

Sincerely,

Michael J Darcy, CAE  
Executive Director
