To assist in providing guidance and information we have created a [Covid-19 resource page](#). We will continue to update the page as we get pertinent information and include announcements in our Daily Updates.

Dear Municipal Clerk:

We would like to share some recent data that we gathered pertaining to liquor license fees for municipalities throughout the State of New Jersey. As a valued member of the League, we are sharing this data with you at no charge, and we hope that you find this information useful.

Details on the Data Collection Process

Over the summer, NJLM hired a virtual intern to complete a data collection project. A recent Rowan University graduate, Charisse Watts updated the League's liquor license dataset. Using the code book for each municipality, Ms. Watts extracted licensing fees, which were then entered into an Excel Workbook. This Excel Workbook of [2020 License Fee data](#) is now available for your use at no cost.

Additional licensing data is available for sale on the League's website. Please visit our full [publication listing](#) for more information.
