Re: Technology Education Conference (TEC)

Dear Mayor:

The role of technology in managing a municipality is increasing at a faster rate than ever before. One of the ways the League supports you in this field is through the New Jersey Chapter of GMIS, the national association of local government technology managers. NJ-GMIS works with the League's as our Technology Support Organization.

I would like bring to your attention the Technology Education Conference (TEC) produced by NJ-GMIS. This is their 7th annual event and takes place on Thursday, April 7 in Franklin Township (Somerset).

Details and registration information is available on line at <http://www.njgmis.org/2016-teconference/>

The one-day conference includes seminars, vendors, networking opportunities and is an invaluable opportunity for those who manage your technology. There are sessions for technical staff, managers, and operating staff who deal with technology. The keynote speaker will be talking about the challenge of managing employees from different generations.

Sincerely,

Michael J. Darcy, CAE  
Executive Director
