Re: UPDATE- Energy Seminar at Rowan University on May 27th

Dear Mayor:

The New Jersey State League of Municipalities Education Foundation cordially invites you to attend a seminar titled, "Mayors' Primer on Important Energy Issues" at Rowan University on May 27th from 5:30 to 8:00 p.m.

Through the generous support of our donors this event is now free to attend.

This seminar is intended give mayors, elected officials, emergency coordinators and other municipal officials a useful and practical understanding of energy issues. This includes a basic understanding of how the electrical grid works, what new technologies can be incorporated to make municipalities more resilient, vegetative management and how to engage in effective communications with utilities during outages and street openings. Attendees will come away with contacts and information as well as a fuller understanding of these evolving energy issues.

However, registration is still necessary. See the link below for more details.
