

Dear Mayor,

We are advised by JCP&L and PSE&G that their storm preparations are well underway in advance of tomorrow's forecasted nor'easter. They are sharing the following contact information so you can stay up to date and report outages as necessary.

From JCP&L:

Customers are reminded to stay away from any downed wires and report any downed wires to JCP&L or local police or fire departments. To report outages customers may call 1-888-LIGHTSS (888-544-4877), or go to www.jcp-l.com.

Follow JCP&L on Twitter @JCP_L or on Facebook at www.facebook.com/JCPandL

From PSE&G:

PSE&G urges its customers to be cautious during and after the storm:

Downed wires should always be considered "live." Do not approach or drive over a downed line and do not touch anything that it might be in contact with.

To prevent carbon monoxide poisoning, do not run any gasoline powered engine, including generators and snowblowers, in a garage or any other enclosed space.

Customers should report downed wires or power outages by calling PSE&G's Customer Service line at 1-800-436-PSEG. Also, customers can report outages at www.pseg.com or by texting "OUT" to 4PSEG (47734). The utility's mobile-friendly website includes an "Outage Map" that is updated every 15 minutes and displays the location and status of power outages in PSE&G's service area.

Sincerely,

Michael J. Darcy, CAE,
Executive Director
