Understanding the Tricky World Of Municipal Insurance Brokerage And Procurement

Every municipality in New Jersey is responsible for obtaining insurance coverage for the municipality and its employees. Insurance is an extraordinary unspecifiable service subject to procurement law requirements. The convergence of insurance regulatory requirements and public contracting law make for a tricky environment that may be subject to review by the Office of the State Comptroller (“OSC”) on a pre- or post-contracting basis. This seminar will focus on the key compliance considerations that result from the application of insurance, procurement and OSC standards.
